

RELIEVE your PAIN

ASK YOUR DOCTOR HOW FOOT LEVELERS CAN HELP

BEFORE

FULL BODY PAIN

Your feet may not hurt, but they can cause **stress and pain** throughout the body.

AFTER

FULL BODY RELIEF

By correcting the imbalances in the feet, support is restored to the entire body.

PAIN RELIEF

Restoring a balanced foundation for the spine relieves the pain caused by poor body mechanics.

BALANCE

With the feet and legs aligned and supported, the pelvis can return to its normal balanced position.

ALIGNMENT

The lower extremity returns to proper alignment when the foot is balanced with Stabilizing Orthotic support.

SUPPORT

Stabilizing Orthotics correct foot imbalance for improved weight distribution.
